Add Router

Access Code *

Enter access code

Default access code is required to add new routers

Router Name *

e.g., Router-Branch-01

3-30 characters, alphanumeric with - and _ only

VPN Configuration Mode *

Hybrid Mode Recommended

- **WireGuard:** Primary VPN for all customer traffic (fast & efficient)
- **OpenVPN:** Management tunnel with port forwarding (Winbox/WebFig)

Best of both worlds

WireGuard Only

Fast & modern protocol
Lightweight VPN
Direct IP access

OpenVPN Only

Traditional VPN
Port forwarding
Wide compatibility

Hybrid Mode: Uses WireGuard for all customer VPN traffic (fast performance) and OpenVPN for management access with port forwarding (easy remote access to Winbox/WebFig). This provides optimal performance while maintaining convenient management access.

Description (Optional)

Brief description or location of this router

Initial Status

Enable Disable

You can enable the router after initial setup

Note: After creation, you'll receive setup instructions and configuration files. Make sure to save all credentials securely.

Cancel Create Router

Bank Payment Configuration

Configure your bank deposit payment gateway settings

Bank Payment Gateway

Configure your bank or SACCO details to enable direct deposit payments. This allows customers to make payments directly to your bank account or till number.

Bank Account Details

Bank Paybill Number *

e.g., 522522, 400200

Enter the Bank or SACCO paybill number for payment processing. Common examples: KCB (522522), Equity (247247)

Bank Account Number *

e.g., 1234567890123

Enter your bank account number or till number where payments will be deposited

Security Notice

- Ensure your bank account details are correct to avoid payment issues
- Keep your account information secure and update it regularly

Changes will take effect immediately after saving

Cancel | Save Configuration

Common Bank Paybill Numbers

KCB Bank 522522	Equity Bank 247247	Co-op Bank 400200	NCBA Bank 329329

These are common paybill numbers. Contact your bank for the correct paybill number if yours is not listed.

M-Pesa Till Configuration

Configure your M-Pesa Buy Goods Till payment gateway

M-Pesa Buy Goods Till

Configure your M-Pesa Buy Goods Till to accept payments directly to your till number. Choose between Business Till (requires API credentials) or Personal Till (simple till number only).

Till Type Selection

Select Till Type *

Personal Till

Business Till

Personal Till Configuration

Personal Till Number *

4975982

Your personal M-Pesa Buy Goods till number

How M-Pesa Till Payments Work

1. **Customer Checkout**
   Customer selects M-Pesa Till payment option
2. **Payment Processing**
   System processes payment via M-Pesa API
3. **Account Activation**
   Service activated upon payment confirmation

Test your configuration before going live
